SUBJECT INDEX

Acetonitrile
Quaternary liquid–liquid equilibria for two systems containing acetonitrile, two alcohols and cyclohexane 339
Isothermal vapour–liquid equilibrium for two quaternary systems including two alcohols, acetonitrile and benzene 349
Adiabatic
Thermal hazards: calculating adiabatic behaviour from differential scanning calorimetry (DSC) data 129
Alcohol
Quaternary liquid–liquid equilibria for two systems containing acetonitrile, two alcohols and cyclohexane 339
Isothermal vapour–liquid equilibrium for two quaternary systems including two alcohols, acetonitrile and benzene 349
Alloy
Thermal analysis studies of the precipitation and dissolution processes of second phases in the Al–Si and Al–Si–Mg systems 33
Ammonium nitrate
Differential scanning calorimetric and Raman studies of phase transition V⇌IV of ammonium nitrate 67
Effect of the crystallization on the phase transitions IV↔III and IV↔II of ammonium nitrate 305
Ammonium oxalate
Kinetics and mechanism of the dehydration of ammonium oxalate monohydrate 255
Antistatic
The preparation and characterisation of a complex of copper with poly(acrylic acid) and an assessment of its suitability as an anti-static additive for polyethylene 249
ARC
Thermal hazards: calculating adiabatic behaviour from differential scanning calorimetry (DSC) data 129
ATHAS
Molecular dynamics simulation and thermal analysis of macromolecular crystals 103
Atmosphere
Reduction reactions in doped ceria ceramics studied by dilatometry 47
Benzene
Isothermal vapour–liquid equilibrium for two quaternary systems including two alcohols, acetonitrile and benzene 349
Binary system
Thermal analysis studies of the precipitation and dissolution processes of second phases in the Al–Si and Al–Si–Mg systems 33
Excess molar heat capacities and excess molar volumes of binary mixtures of 2-bromo-2-chloro-1,1,1-trifluoroethane (halothane) with oxygenated and hydrocarbon solvents 183
Quaternary liquid–liquid equilibria for two systems containing acetonitrile, two alcohols and cyclohexane 339
Bipyridyl
Protonation thermodynamics of 2,2'-bipyridyl in aqueous solution. Salt effects and weak complex formation 325
Bis(2-pyridyl)pyrazine
Preparation, structural characterisation, thermal and electrical studies of some first row transition metal complexes of 2,3-bis(2-pyridyl)pyrazine 227
Burning profile
A review of the derivative thermogravimetric technique (burning profile) for fuel combustion studies 171
Butanediol
Thermochemical studies on water–butane-1,2-diol–NaI and water–butane-1,4-diol–NaI at 298.15 K 195

Calcite
Variations in water sorption and in thermogravimetry of a Portland cement 97
Calorimeter
Oxidation of polyethylene monitored by microcalorimetry at 70°C 141
Monitoring wax crystallisation in diesel using differential scanning calorimetry (DSC) and microcalorimetry 149
Catalyst
Curing kinetics of diallyl phthalate in the presence of dicumyl peroxide as catalyst. A

comparison of different data analysis techniques 277
Cement
Variations in water sorption and in thermogravimetry of a Portland cement 97
Ceramics
Oxidation behaviour of Si_3N_4-based ceramics, studied by the thermogravimetric method 27
Reduction reactions in doped ceria ceramics studied by dilatometry 47
The Thermo Calc project 93
Ceria
Reduction reactions in doped ceria ceramics studied by dilatometry 47
Coal
A review of the derivative thermogravimetric technique (burning profile) for fuel combustion studies 171
Cobalt compound
Pyridine type complexes of transition-metal halides. Part 2. Preparation, characterization and thermal analysis studies of cobalt(II) bromides and iodides with 2,3,4-methylpyridines 71
Thermal, structural and electrical studies of the chloro complexes of cobalt, nickel and copper with 4,7-phenanthroline 211
Thermal, structural and electrical studies of the chloro complexes of cobalt, nickel and copper with 1,10-phenanthroline 219
Preparation, structural characterisation, thermal and electrical studies of some first row transition metal complexes of 2,3-bis(2-pyridyl)pyrazine 227
Preparation, structural characterisation, thermal and electrical studies of complexes of cobalt, nickel and copper with *m*-toluidine 235
Preparation, structural characterisation and thermal analysis studies of complexes of cobalt, nickel and copper with nonylamine 243
Combustion
A review of the derivative thermogravimetric technique (burning profile) for fuel combustion studies 171
Use of thermal equipment to evaluate crude oils 315
Complexation
Protonation thermodynamics of 2,2′-bipyridyl in aqueous solution. Salt effects and weak complex formation 325
Conduction
Preparation, structural characterisation, thermal and electrical studies of complexes of cobalt, nickel and copper with *m*-toluidine 235
Conductivity
Thermal, structural and electrical studies of the chloro complexes of cobalt, nickel and copper with 1,10-phenanthroline 219
Co-ordination
Preparation, structural characterisation and thermal analysis studies of complexes of cobalt, nickel and copper with nonylamine 243
Copolymer
Crystallinity of filled compositions of low-density polyethylene and poly(ethylene-co-vinyl acetate) 123
Copper compound
Thermal, structural and electrical studies of the chloro complexes of cobalt, nickel and copper with 4,7-phenanthroline 211
Thermal, structural and electrical studies of the chloro complexes of cobalt, nickel and copper with 1,10-phenanthroline 219
Preparation, structural characterisation, thermal and electrical studies of some first row transition metal complexes of 2,3-bis(2-pyridyl)pyrazine 227
Preparation, structural characterisation, thermal and electrical studies of complexes of cobalt, nickel and copper with *m*-toluidine 235
Preparation, structural characterisation and thermal analysis studies of complexes of cobalt, nickel and copper with nonylamine 243
The preparation and characterisation of a complex of copper with poly(acrylic acid) and an assessment of its suitability as an anti-static additive for polyethylene 249
Cristobalite
Thermosonimetric (TS) investigation of quartz → cristobalite conversion in quartzites 51
Crystal
Molecular dynamics simulation and thermal analysis of macromolecular crystals 103
Crystallinity
Crystallinity of filled compositions of low-density polyethylene and poly(ethylene-co-vinyl acetate) 123
Crystallization
Monitoring wax crystallisation in diesel using differential scanning calorimetry (DSC) and microcalorimetry 149
Effect of the crystallization on the phase transitions IV↔III and IV↔II of ammonium nitrate 305
Curing
Optimization of cure kinetics model parameters from DSC data 145
Curing kinetics of diallyl phthalate in the

presence of dicumyl peroxide as catalyst. A comparison of different data analysis techniques 277
Cyclohexane
Quaternary liquid–liquid equilibria for two systems containing acetonitrile, two alcohols and cyclohexane 339

Database
The Thermo Calc project 93
Decomposition
Applications of thermal analysis to the study of inorganic materials 1
Pyridine type complexes of transition-metal halides. Part 2. Preparation, characterization and thermal analysis studies of cobalt(II) bromides and iodides with 2,3,4-methylpyridines 71
Preparation, structural characterisation and thermal analysis studies of complexes of cobalt, nickel and copper with nonylamine 243
Thermogravimetric study of lanthanoid picrate complexes with dimethylsulfoxide (DMSO) 361
Dehydration
Reversible dehydration in Sinya sepiolite 59
Kinetics and mechanism of the dehydration of ammonium oxalate monohydrate 255
Desorption
Sorption of liquid propane in polyethylene 111
Diallyl phthalate
Curing kinetics of diallyl phthalate in the presence of dicumyl peroxide as catalyst. A comparison of different data analysis techniques 277
Diesel
Monitoring wax crystallisation in diesel using differential scanning calorimetry (DSC) and microcalorimetry 149
Dilatometry
Reduction reactions in doped ceria ceramics studied by dilatometry 47
DMF
The enthalpic characteristics of individual ions in the mixed solvent *N,N*-dimethylformamide–water 203
DMSO
Thermogravimetric study of lanthanoid picrate complexes with dimethylsulfoxide (DMSO) 361
Doping
Reduction reactions in doped ceria ceramics studied by dilatometry 47
DSC
Thermal analysis studies of the precipitation and dissolution processes of second phases in the Al–Si and Al–Si–Mg systems 33
Differential scanning calorimetric and Raman studies of phase transition V⇌IV of ammonium nitrate 67
Thermoanalytical investigations of fullerenes 85
Crystallinity of filled compositions of low-density polyethylene and poly(ethylene-co-vinyl acetate) 123
Thermal hazards: calculating adiabatic behaviour from differential scanning calorimetry (DSC) data 129
Oxidation of polyethylene monitored by microcalorimetry at 70°C 141
Optimization of cure kinetics model parameters from DSC data 145
Monitoring wax crystallisation in diesel using differential scanning calorimetry (DSC) and microcalorimetry 149
Thermoanalytical studies on phases of D-mannitol 157
A novel approach to precision controlled cooling of a differential scanning calorimeter 163
Curing kinetics of diallyl phthalate in the presence of dicumyl peroxide as catalyst. A comparison of different data analysis techniques 277
Effect of the crystallization on the phase transitions IV↔III and IV↔II of ammonium nitrate 305
Use of thermal equipment to evaluate crude oils 315
DTA
Thermoanalytical studies on TiO_2–mica pigments 19
New results about ternary lanthanide chlorides 41
Reversible dehydration in Sinya sepiolite 59
Pyridine type complexes of transition-metal halides. Part 2. Preparation, characterization and thermal analysis studies of cobalt(II) bromides and iodides with 2,3,4-methylpyridines 71
Thermal, structural and electrical studies of the chloro complexes of cobalt, nickel and copper with 4,7-phenanthroline 211
Thermal, structural and electrical studies of the chloro complexes of cobalt, nickel and copper with 1,10-phenanthroline 219
Preparation, structural characterisation, thermal and electrical studies of some first row transition metal complexes of 2,3-bis(2-pyridyl)pyrazine 227
Preparation, structural characterisation, thermal and electrical studies of complexes of cobalt, nickel and copper with *m*-toluidine 235

Preparation, structural characterisation and thermal analysis studies of complexes of cobalt, nickel and copper with nonylamine 243
The preparation and characterisation of a complex of copper with poly(acrylic acid) and an assessment of its suitability as an anti-static additive for polyethylene 249
Preparation and properties of yttrium and lanthanide complexes with *m*-methoxybenzoic acid 261
Kinetics and mechanism of thermal decomposition of lithium oxalate catalysed by $Cd_{1-x}Co_xFe_2O_4$ ($x = 0.0$, 0.5 and 1.0) ferrospinel additives 291

DTG
Thermoanalytical studies on TiO_2–mica pigments 19
Reversible dehydration in Sinya sepiolite 59
Pyridine type complexes of transition-metal halides. Part 2. Preparation, characterization and thermal analysis studies of cobalt(II) bromides and iodides with 2,3,4-methylpyridines 71
Thermoanalytical investigations of fullerenes 85
A review of the derivative thermogravimetric technique (burning profile) for fuel combustion studies 171
Preparation and properties of yttrium and lanthanide complexes with *m*-methoxybenzoic acid 261

EDS
Reversible dehydration in Sinya sepiolite 59

EGA
Evolved gas analysis of inorganic compounds with a quadrupole mass spectrometer coupled to a thermogravimetric analyzer 9

Electro-optical
Applications of thermal analysis to the study of inorganic materials 1

Equilibrium
Quaternary liquid–liquid equilibria for two systems containing acetonitrile, two alcohols and cyclohexane 339

Equipment
Evolved gas analysis of inorganic compounds with a quadrupole mass spectrometer coupled to a thermogravimetric analyzer 9

EVA
Crystallinity of filled compositions of low-density polyethylene and poly(ethylene-co-vinyl acetate) 123

Excess molar heat capacity
Excess molar heat capacities and excess molar volumes of binary mixtures of 2-bromo-2-chloro-1,1,1-trifluoroethane (halothane) with oxygenated and hydrocarbon solvents 183

Explosive
Thermal hazards: calculating adiabatic behaviour from differential scanning calorimetry (DSC) data 129

Ferrospinel
Kinetics and mechanism of thermal decomposition of lithium oxalate catalysed by $Cd_{1-x}Co_xFe_2O_4$ ($x = 0.0$, 0.5 and 1.0) ferrospinel additives 291

Filler
Crystallinity of filled compositions of low-density polyethylene and poly(ethylene-co-vinyl acetate) 123

Fuel
Monitoring wax crystallisation in diesel using differential scanning calorimetry (DSC) and microcalorimetry 149
A review of the derivative thermogravimetric technique (burning profile) for fuel combustion studies 171

Fullerene
Thermoanalytical investigations of fullerenes 85

Gibbs energy
New results about ternary lanthanide chlorides 41

Halide
Pyridine type complexes of transition-metal halides. Part 2. Preparation, characterization and thermal analysis studies of cobalt(II) bromides and iodides with 2,3,4-methylpyridines 71

Halothane
Excess molar heat capacities and excess molar volumes of binary mixtures of 2-bromo-2-chloro-1,1,1-trifluoroethane (halothane) with oxygenated and hydrocarbon solvents 183

HDPE
The preparation and characterisation of a complex of copper with poly(acrylic acid) and an assessment of its suitability as an anti-static additive for polyethylene 249

Heat capacity
Molecular dynamics simulation and thermal analysis of macromolecular crystals 103

Heat of formation
New results about ternary lanthanide chlorides 41

Heat of fusion
Crystallinity of filled compositions of low-

density polyethylene and poly(ethylene-co-vinyl acetate) 123
Thermoanalytical studies on phases of D-mannitol 157
Heat of solution
Thermochemical studies on water–butane-1,2-diol–NaI and water–butane-1,4-diol–NaI at 298.15 K 195
The enthalpic characteristics of individual ions in the mixed solvent *N,N*-dimethylformamide–water 203
Hydration
Reversible dehydration in Sinya sepiolite 59
Variations in water sorption and in thermogravimetry of a Portland cement 97
Hydrocarbon
Excess molar heat capacities and excess molar volumes of binary mixtures of 2-bromo-2-chloro-1,1,1-trifluoroethane (halothane) with oxygenated and hydrocarbon solvents 183

Instrument
A novel approach to precision controlled cooling of a differential scanning calorimeter 163
Ion
The enthalpic characteristics of individual ions in the mixed solvent *N,N*-dimethylformamide–water 203
Isothermal
Optimization of cure kinetics model parameters from DSC data 145
Kinetics and mechanism of the dehydration of ammonium oxalate monohydrate 255
Isothermal vapour–liquid equilibrium for two quaternary systems including two alcohols, acetonitrile and benzene 349

Kinetics
Optimization of cure kinetics model parameters from DSC data 145
Kinetics and mechanism of the dehydration of ammonium oxalate monohydrate 255
Curing kinetics of diallyl phthalate in the presence of dicumyl peroxide as catalyst. A comparison of different data analysis techniques 277
Knudsen
Thermoanalytical investigations of fullerenes 85

Lanthanon compound
New results about ternary lanthanide chlorides 41
Preparation and properties of yttrium and lanthanide complexes with *m*-methoxybenzoic acid 261
Thermogravimetric study of lanthanoid picrate complexes with dimethylsulfoxide (DMSO) 361
LDPE
Sorption of liquid propane in polyethylene 111
Crystallinity of filled compositions of low-density polyethylene and poly(ethylene-co-vinyl acetate) 123
Liquid
Isothermal vapour–liquid equilibrium for two quaternary systems including two alcohols, acetonitrile and benzene 349

Macromolecule
Molecular dynamics simulation and thermal analysis of macromolecular crystals 103
MDPE
Sorption of liquid propane in polyethylene 111
Meerschaum
Reversible dehydration in Sinya sepiolite 59
Methodology
A novel approach to precision controlled cooling of a differential scanning calorimeter 163
Methoxybenzoic acid
Preparation and properties of yttrium and lanthanide complexes with *m*-methoxybenzoic acid 261
Mica
Thermoanalytical studies on TiO_2–mica pigments 19
Mixed salt
Applications of thermal analysis to the study of inorganic materials 1
Model
Optimization of cure kinetics model parameters from DSC data 145
Moisture
Effect of the crystallization on the phase transitions IV↔III and IV↔II of ammonium nitrate 305
MS
Evolved gas analysis of inorganic compounds with a quadrupole mass spectrometer coupled to a thermogravimetric analyzer 9
Muscovite
Thermoanalytical studies on TiO_2–mica pigments 19

Nickel compound
Thermal, structural and electrical studies of the chloro complexes of cobalt, nickel and copper with 4,7-phenanthroline 211
Thermal, structural and electrical studies of

the chloro complexes of cobalt, nickel and copper with 1,10-phenanthroline 219
Preparation, structural characterisation, thermal and electrical studies of some first row transition metal complexes of 2,3-bis(2-pyridyl)pyrazine 227
Preparation, structural characterisation, thermal and electrical studies of complexes of cobalt, nickel and copper with *m*-toluidine 235
Preparation, structural characterisation and thermal analysis studies of complexes of cobalt, nickel and copper with nonylamine 243
Non-isothermal
Kinetics and mechanism of the dehydration of ammonium oxalate monohydrate 255
Nonylamine
Preparation, structural characterisation and thermal analysis studies of complexes of cobalt, nickel and copper with nonylamine 243

Oil
Use of thermal equipment to evaluate crude oils 315
Oxalate
Applications of thermal analysis to the study of inorganic materials 1
Kinetics and mechanism of thermal decomposition of lithium oxalate catalysed by $Cd_{1-x}Co_xFe_2O_4$ ($x = 0.0$, 0.5 and 1.0) ferrospinel additives 291
Oxidation
Oxidation behaviour of Si_3N_4-based ceramics, studied by the thermogravimetric method 27
Thermoanalytical investigations of fullerenes 85
Oxidation of polyethylene monitored by microcalorimetry at 70°C 141
Oxygenated solvent
Excess molar heat capacities and excess molar volumes of binary mixtures of 2-bromo-2-chloro-1,1,1-trifluoroethane (halothane) with oxygenated and hydrocarbon solvents 183

Phase
Applications of thermal analysis to the study of inorganic materials 1
Thermal analysis studies of the precipitation and dissolution processes of second phases in the Al–Si and Al–Si–Mg systems 33
Effect of the crystallization on the phase transitions IV↔III and IV↔II of ammonium nitrate 305
Quaternary liquid–liquid equilibria for two systems containing acetonitrile, two alcohols and cyclohexane 339
Isothermal vapour–liquid equilibrium for two quaternary systems including two alcohols, acetonitrile and benzene 349
Phase transition
Differential scanning calorimetric and Raman studies of phase transition V⇌IV of ammonium nitrate 67
Thermoanalytical investigations of fullerenes 85
Thermoanalytical studies on phases of D-mannitol 157
Phenanthroline
Thermal, structural and electrical studies of the chloro complexes of cobalt, nickel and copper with 4,7-phenanthroline 211
Thermal, structural and electrical studies of the chloro complexes of cobalt, nickel and copper with 1,10-phenanthroline 219
Phologopite
Thermoanalytical studies on TiO_2–mica pigments 19
Picoline
Pyridine type complexes of transition-metal halides. Part 2. Preparation, characterization and thermal analysis studies of cobalt(II) bromides and iodides with 2,3,4-methylpyridines 71
Poly(acrylic acid)
The preparation and characterisation of a complex of copper with poly(acrylic acid) and an assessment of its suitability as an anti-static additive for polyethylene 249
Polyethylene
Sorption of liquid propane in polyethylene 111
Oxidation of polyethylene monitored by microcalorimetry at 70°C 141
The preparation and characterisation of a complex of copper with poly(acrylic acid) and an assessment of its suitability as an anti-static additive for polyethylene 249
Polymer
Curing kinetics of diallyl phthalate in the presence of dicumyl peroxide as catalyst. A comparison of different data analysis techniques 277
Polymorphism
Thermoanalytical studies on phases of D-mannitol 157
Portlandite
Variations in water sorption and in thermogravimetry of a Portland cement 97
Potassium chloride
Protonation thermodynamics of 2,2′-

bipyridyl in aqueous solution. Salt effects and weak complex formation 325
Precision
A novel approach to precision controlled cooling of a differential scanning calorimeter 163
Program
Optimization of cure kinetics model parameters from DSC data 145
Propane
Sorption of liquid propane in polyethylene 111
Pyrolysis
Kinetics and mechanism of thermal decomposition of lithium oxalate catalysed by $Cd_{1-x}Co_xFe_2O_4$ ($x = 0.0$, 0.5 and 1.0) ferrospinel additives 291
Use of thermal equipment to evaluate crude oils 315

Quartz
Thermosonimetric (TS) investigation of quartz → cristobalite conversion in quartzites 51
Quartzite
Thermosonimetric (TS) investigation of quartz → cristobalite conversion in quartzites 51
Quaternary system
Quaternary liquid–liquid equilibria for two systems containing acetonitrile, two alcohols and cyclohexane 339

Raman
Differential scanning calorimetric and Raman studies of phase transition V ⇌ IV of ammonium nitrate 67
Rate law
Kinetics and mechanism of the dehydration of ammonium oxalate monohydrate 255
Resin
Optimization of cure kinetics model parameters from DSC data 145
Curing kinetics of diallyl phthalate in the presence of dicumyl peroxide as catalyst. A comparison of different data analysis techniques 277

SEM
Kinetics and mechanism of thermal decomposition of lithium oxalate catalysed by $Cd_{1-x}Co_xFe_2O_4$ ($x = 0.0$, 0.5 and 1.0) ferrospinel additives 291
Sepiolite
Reversible dehydration in Sinya sepiolite 59
Sialon
Oxidation behaviour of Si_3N_4-based ceramics, studied by the thermogravimetric method 27
Silicate
Reversible dehydration in Sinya sepiolite 59
Simulation
Molecular dynamics simulation and thermal analysis of macromolecular crystals 103
Sodium iodide
Thermochemical studies on water–butane-1,2-diol–NaI and water–butane-1,4-diol–NaI at 298.15 K 195
Software
The Thermo Calc project 93
Solid state
Effect of the crystallization on the phase transitions IV ↔ III and IV ↔ II of ammonium nitrate 305
Solubility
Preparation and properties of yttrium and lanthanide complexes with *m*-methoxybenzoic acid 261
Solvation
The enthalpic characteristics of individual ions in the mixed solvent *N*,*N*-dimethylformamide–water 203
Solvent
Pyridine type complexes of transition-metal halides. Part 2. Preparation, characterization and thermal analysis studies of cobalt(II) bromides and iodides with 2,3,4-methylpyridines 71
The enthalpic characteristics of individual ions in the mixed solvent *N*,*N*-dimethylformamide–water 203
Sorption
Sorption of liquid propane in polyethylene 111
Structure
New results about ternary lanthanide chlorides 41

TA
Applications of thermal analysis to the study of inorganic materials 1
Ternary system
Thermal analysis studies of the precipitation and dissolution processes of second phases in the Al–Si and Al–Si–Mg systems 33
Tertiary system
Quaternary liquid–liquid equilibria for two systems containing acetonitrile, two alcohols and cyclohexane 339
TG
Evolved gas analysis of inorganic compounds with a quadrupole mass spectrometer coupled to a thermogravimetric analyzer 9

Thermoanalytical studies on TiO_2–mica pigments 19
Oxidation behaviour of Si_3N_4-based ceramics, studied by the thermogravimetric method 27
Reversible dehydration in Sinya sepiolite 59
Pyridine type complexes of transition-metal halides. Part 2. Preparation, characterization and thermal analysis studies of cobalt(II) bromides and iodides with 2,3,4-methylpyridines 71
Thermoanalytical investigations of fullerenes 85
Variations in water sorption and in thermogravimetry of a Portland cement 97
Sorption of liquid propane in polyethylene 111
Thermoanalytical studies on phases of D-mannitol 157
Thermal, structural and electrical studies of the chloro complexes of cobalt, nickel and copper with 4,7-phenanthroline 211
Thermal, structural and electrical studies of the chloro complexes of cobalt, nickel and copper with 1,10-phenanthroline 219
Preparation, structural characterisation, thermal and electrical studies of some first row transition metal complexes of 2,3-bis(2-pyridyl)pyrazine 227
Preparation, structural characterisation, thermal and electrical studies of complexes of cobalt, nickel and copper with *m*-toluidine 235
Preparation, structural characterisation and thermal analysis studies of complexes of cobalt, nickel and copper with nonylamine 243
The preparation and characterisation of a complex of copper with poly(acrylic acid) and an assessment of its suitability as an anti-static additive for polyethylene 249
Kinetics and mechanism of the dehydration of ammonium oxalate monohydrate 255
Preparation and properties of yttrium and lanthanide complexes with *m*-methoxybenzoic acid 261
Kinetics and mechanism of thermal decomposition of lithium oxalate catalysed by $Cd_{1-x}Co_xFe_2O_4$ ($x = 0.0$, 0.5 and 1.0) ferrospinel additives 291
Thermogravimetric study of lanthanoid picrate complexes with dimethylsulfoxide (DMSO) 361

TGA
A review of the derivative thermogravimetric technique (burning profile) for fuel combustion studies 171
Use of thermal equipment to evaluate crude oils 315

Thermo Calc
The Thermo Calc project 93

Thermodynamics
Protonation thermodynamics of 2,2′-bipyridyl in aqueous solution. Salt effects and weak complex formation 325

Thermosetting
Optimization of cure kinetics model parameters from DSC data 145
Curing kinetics of diallyl phthalate in the presence of dicumyl peroxide as catalyst. A comparison of different data analysis techniques 277

Titanium oxide
Thermoanalytical studies on TiO_2–mica pigments 19

Toluidine
Preparation, structural characterisation, thermal and electrical studies of complexes of cobalt, nickel and copper with *m*-toluidine 235

Transformation
Preparation and properties of yttrium and lanthanide complexes with *m*-methoxybenzoic acid 261

Transition metal compound
Preparation, structural characterisation, thermal and electrical studies of some first row transition metal complexes of 2,3-bis(2-pyridyl)pyrazine 227

Transition
Effect of the crystallization on the phase transitions IV↔III and IV↔II of ammonium nitrate 305

TS
Thermosonimetric (TS) investigation of quartz → cristobalite conversion in quartzites 51

UNIQUAC
Quaternary liquid–liquid equilibria for two systems containing acetonitrile, two alcohols and cyclohexane 339
Isothermal vapour–liquid equilibrium for two quaternary systems including two alcohols, acetonitrile and benzene 349

Vacuum
Reversible dehydration in Sinya sepiolite 59

Vapour
Isothermal vapour–liquid equilibrium for two quaternary systems including two alcohols, acetonitrile and benzene 349

Water
Thermochemical studies on water–butane-1,2-diol–NaI and water–butane-1,4-diol–NaI at 298.15 K 195
Wax
Monitoring wax crystallisation in diesel using differential scanning calorimetry (DSC) and microcalorimetry 149
Wilson
Quaternary liquid–liquid equilibria for two systems containing acetonitrile, two alcohols and cyclohexane 339
XRD
Variations in water sorption and in thermogravimetry of a Portland cement 97
Kinetics and mechanism of thermal decomposition of lithium oxalate catalysed by $Cd_{1-x}Co_xFe_2O_4$ ($x = 0.0$, 0.5 and 1.0) ferrospinel additives 291
Yttrium compound
Preparation and properties of yttrium and lanthanide complexes with *m*-methoxybenzoic acid 261
